Selection form for the

Master Program in Quantitative Decision Making in Economics and Management

The selection form serves to document your application, in particular the selection procedure, and consists of four pages. Please note that only selection forms and information that meet the following requirements can be considered:

- The selection form must be submitted to Mainz University together with your application for admission.
- The form must be filled out carefully and completely in block letters, and all applicable information must be marked with a cross.
- All information must be clearly documented by certified proof.
- Please also indicate the study and examination achievements within the information on your admission requirements if you are unsure whether their content can be taken into account. In cases of doubt, the examination board will decide.
- If your first degree course does not include European Credit Transfer and Accumulation System (ECTS) credits, please state the credit points (CP), weekly semester hours (SWS) and grade weighting key for the entire course and for the examination and coursework listed.

Last name	First name	Applicant number

Contact:

If you have specific questions about the selection procedure for the Master's degree program in Quantitative Decision Making in Economics and Management, please contact the Program Manager: gdem@uni-mainz.de

Further information, in particular on the examination regulations (PO), can be found at the following link: https://studienbuero.rewi.uni-mainz.de/downloads/

If you have general questions about the application procedure, please contact the JGU Student Services at +49 6131 39-22122

studsek@uni-mainz.de (applicants with German citizenship or a German school or university degree)
incomings@international.uni-mainz.de (foreign students without German citizenship)

Evidence of the admission requirements:

I am aware that only applicants who meet the following requirements according to paragraph 2, section 2 of the examination regulations can be admitted to the Master's degree program. I have enclosed the relevant documents as proof (transcript of records in German or English).

☐ Proof of a completed **bachelor-level degree** from a university in Germany or abroad.

Type of proof:

☐ **Language Skills:** English language skills at B2 level, proven by one of the following options (maximum 3 year old proof):

- Higher education entrance qualification acquired in an English-taught institution
- First Certificate in English (University of Cambridge ESOL Examinations) or higher (Advanced (CAE) or Proficiency (CPE))
- IELTS (International English Language Testing System), minimum score of 5.5
- TOEFL (Test of English as a Foreign Language), 72 (Internet-based test, iBT), 47 (revised TOEFL Paper-delivered Test, PdT)
- Telc English B2
- OTE (Oxford Test of English): average score of 111 out of 140
- PTE (Pearson Test of English) Academic: 59–75 points

Note that it is possible to apply for admission to the QDEM program before taking the TOEFL/ IELTS etc. In this case, the results have to be submitted by the student until the end of the semester in which she/he started her/his studies. If this proof is not provided on time, the admission will be rescinded.

☐ Proof of successfully completed courses totaling at least **19 ECTS in quantitative empirical methods**.

This includes courses like mathematics, statistics, econometrics, quantitative empirical research.
Application-oriented courses and examinations, such as microeconomics, finance or marketing, cannot be considered here. Methods of research and scientific work (dt. Methoden des wissenschaftlichen Arbeitens) are also not taken into account here. If you are not sure whether a course or examination can be considered, please list the corresponding course or exam in the table below. The examination board will then decide whether the course or examination satisfies the requirements in terms of quantitative methodological content.

If, in your opinion, the course name does not clearly indicate whether the course includes sufficient quantitative methodological content (e.g. Empirical Economic Research), please enclose the official module or course description.
Please note that your given information will be checked against your official transcript of records and that all information (module/course name and credit points) must therefore be found on your transcript. If this is not the case, the respective information will not be considered.
